## Our Mission

We always want to provide you the best services & support at every step of your loan application and approval journey. That's why we have a team of highly professional & knowledgeable finance executives with us

## Our Services

### 1. PERSONAL LOAN

#### What is a Personal Loan?

A personal loan is an amount of money you can borrow to use for a variety of purposes. For instance, you may use a personal loan to consolidate debt, pay for home renovations, or plan a dream wedding. Personal loans can be offered by banks, credit unions, or online lenders. The money you borrow must be repaid over time, typically with interest. Some lenders may also charge fees for personal loans.

### 2. HOME LOAN

#### What is a Personal Loan?

A personal loan is an amount of money you can borrow to use for a variety of purposes. For instance, you may use a personal loan to consolidate debt, pay for home renovations, or plan a dream wedding. Personal loans can be offered by banks, credit unions, or online lenders. The money you borrow must be repaid over time, typically with interest. Some lenders may also charge fees for personal loans.

### 3. BUSINESS LOAN

#### What are Business Loan?

A business loan is a loan specifically intended for business purposes. Businesses require an adequate amount of capital to fund startup expenses or pay for expansions. As such, companies take out business loans to gain the financial assistance they need. A business loan is debt that the company is obligated to repay according to the loan's terms and conditions.

## 4.COMMERCIAL PROPERTY LOAN

### What is What are Commercial Property Loan ?

Commercial Property loans are meant to purchase commercial properties much like Home loans are meant to purchase residential properties. Whether it is buying space for your first office or for subsequent branches or simply to invest in commercial real estate for rental income, Commercial Property loans are the answer. Like Home loans and other property based loans, the consumer borrows from a lender (typically a Bank, an NBFC or a housing finance company), to purchase a commercial property and offers the same property to the lender as security.

## 5.LOAN AGAINST PROPERTY

### what Is Loan Against Property?

Loan against Property ( LAP ) is very unique product which couples the feature of a personal loan and a secured loan. This loan product helps in unlocking the value of the most precious asset: your Property. The end use of the loan is not monitored when compared to any other secured loan which generally comes with a specific purpose. In that sense, LAP is an any purpose loan, but at the same time secured by collateral of property. This is one of the best tools for those looking at debt consolidation. There are several businesses which has obtained high cost funds like unsecured business loans and leveraged themselves to a greater extend, thereby putting pressure on higher interest cost and lower profit margins. LAP perfectly fits for such businesses to

## 6.CREDIT CARD LOAN

### What is a Loan on a Credit Card?

A Loan on Credit Card is a type of Personal Loan and a pre-approved facility. It does not require you to go through extensive documentation, except for paperwork, to ensure your eligibility. It is an unsecured loan, that means you do not have to pledge any collateral or security in exchange for the loan amount. ICICI Bank offers this facility in the form of a Personal Loan on Credit Card, to select existing customers, after evaluating their credit history, transaction patterns and spending. You can apply for a loan at ICICI Bank at an attractive Credit Card Loan interest rate.

## 7.PROJECT LOAN

### What is Project Loan?

Project loan is a type of loan provided to businesses to help them finance specific projects or ventures. These projects can be things like building infrastructure, expanding facilities, or implementing new technologies. The loan is usually for a long period of time, and the borrower needs to provide collateral or security. The loan amount is based on the estimated project cost, and the funds are used to cover various project expenses. The interest rates can vary depending on factors like the borrower's creditworthiness and the project's viability. It's important to understand the loan terms and requirements before applying.
